CAREER OBJECTIVE

Results-driven **Full Stack Developer** and **Project Manager** with **5+ years** of experience delivering high-quality software products, leading development teams, and integrating complex systems. Proven success managing freelance projects, building scalable applications, and deploying solutions using the **MERN stack, React Native, Git,** and **cloud platforms**. Skilled in deployments on **VPS** and **VPN** environments, with expertise in **MySQL** and **MongoDB databases.** Experienced project manager and team lead, seeking to contribute technical expertise and leadership skills to innovative projects in a growth-oriented organization.

TECHNICAL SKILLS

- MERN Stack (MongoDB, Express.js, React, Node.js)
- React Native (Cross-Platform Mobile Application Development)
- Server-Side Rendering (e.g. Next.js)
- Cloud Services & Deployment (AWS, Firebase, Render, VPS/VPN)
- Authentication & Authorization (JWT, OAuth, Firebase Auth)
- API Integrations & Webhooks
- Payment Gateway Integration (Stripe, PayPal, WooCommerce etc.)
- Version Control & Collaboration (Git, GitHub)
- Admin Panels & Dashboards (React Admin, Custom UI)
- MVC Architecture & Modular Code Structure

PROFESSIONAL EXPERIENCE

1. Project Manager | Opal Solutions Private Limited (UK) | 08/2023 to Current

• Leading end-to-end product lifecycle for multiple full-stack solutions in a high-paced agile environment.
• Coordinating with international clients and internal development teams to deliver customized solutions.
• Driving deployments and optimizing system reliability using **AWS** and **Firebase**.

2. Team Lead (Full Stack Developer) | PsiSquare Limited | 02/2023 to 06/2023

• Led full-stack development on multiple client projects using **MERN stack** and **API** integrations.
• Designed and implemented modular, scalable architecture.
• Mentored junior developers and conducted code reviews.

3. Full Stack Developer | StackUp Solutions | 03/2021 to 02/2023

• Designed and deployed end-to-end web and mobile applications tailored to client needs.
• Utilized **MongoDB, Express, React, and Node.js** to build high-performance systems.
• Integrated **third-party APIs**, developed authentication features, and implemented responsive UI designs.

4. Game Developer | Mizo Studios | 05/2020 to 02/2021

• Developed interactive **2D and 3D games** using game development engines and custom scripting.
• Designed engaging gameplay mechanics and optimized performance across various platforms.
• Collaborated with graphic designers and sound engineers to deliver polished, production-ready games.

5. Freelancer | Fiverr & Upwork | 12/2019 to Current

• Successfully delivered **400+ freelance** projects with consistent **5-star ratings on Fiverr**, achieving **Level 2 Seller** status multiple times, and maintaining a **4.9-star rating on Upwork** with over **$4,000** in earnings.
• Specialized in **MERN stack** development, **WordPress, Shopify, API integrations**, and full-stack deployments, delivering robust and scalable solutions for diverse client needs.
• Experienced as a Virtual Assistant and Full-Stack Developer, building and deploying **custom CMS, eCommerce, booking systems**, and data processing platforms across various industries.

PROFESSIONAL PROJECTS

• **MHZ TimeCloak** – *Anti time-tracking desktop tool* (https://mhztimecloak.com)
Built in C# and VB.NET with Stripe integration and hardware-locked licensing. Deployed via a WordPress backend

• **MHZ-Flix** – *Netflix clone*
MERN Stack app for video streaming using **TMDB API** with user auth, admin panel, and content upload

• **MHZ School Portal** – *School management system*
All-in-one MERN solution with student/teacher/admin portals, attendance, and results

• **MHZ CRM** – *Customer relationship management tool*
MERN-based CRM for lead tracking, task assignment, and client management

• **MHZ FoodBear** – *Restaurant & food delivery app*
Food ordering platform like FoodPanda, built with MERN and Stripe integration.

• **YourDiamondGuys** – *Diamond grading platform*
React + Node.js frontend with Django REST API backend for automated diamond quality testing

• **ZeeTech PayCloak** – *3rd-party Stripe payment module*
Autonomous MERN payment system with subscription and billing features.

• **ZeeTravelo** – *Travel booking platform*
End-to-end MERN app integrated with **Amadeus API** for flights, hotels, and cars

• **Jira Clone** – *Project management tool*
MERN-based task tracker with Kanban boards, real-time updates, and user roles

• **Complete Trading App using DhanHQ API** – *Real-time stock trading app*
Developed using MERN Stack with WebSockets for live data, charts, and portfolio tracking

• **JustPillsUK** – *Medicine delivery app + Wordpress website*
React Native mobile app with WordPress backend, prescription uploads, and order tracking

• **I-FFiR** – *Firefighting robot (FYP)*
Built with Python and OpenCV for real-time fire detection and autonomous response

EDUCATIONAL BACKGROUND

Bachelor's | Computer Science | 06/2020
National University of Computer and Emerging Sciences, Lahore

Pre-Engineering | 05/2014
Forman Christian College, Lahore
